The Insect Repellent Lotion

« A lotion that combines the properties of the sweet almonds oil with those of eleven essential oils to relieve, and above all, avoid insect bites.

A 100% natural product, with a pleasant smell, largely as effective as the chemical repellents, in a small vial that can be taken anywhere. »

Ingredients : Cold Pressed Sweet Almond Oil. Essential Oils of Cedarwood, Citronella, Eucalyptus, Lavender, Lemongrass, Peppermint, Pine, Rosemary, Sage, Sweet Orange, Tea Tree.

Presentation : 10, 15, 20, 30, 50 and 100 ml glass bottles.

Shelf Life : needs to remain tightly closed and stored away from light and heat. Best if used within 2 years after the manufacturing date printed on the label.

Instructions:

To relieve insect bites: with clean hands, apply and spread locally one to two drops of the lotion. The soothing qualities of sweet almond oil, as well as the antiseptic and anti-inflammatory powers of the essential oils, will provide immediate relief: and accelerate healing. Repeat as needed.

To protect yourself from insect bites: pour and spread a few drops of lotion on the parts of the body that remain unclothed and exposed to insect bites. Regarding the bloodsucking insects such as mosquitoes, you must think about protecting your hands and feet, richly vascularized, and those insects' preferred targets.

Frequency of use:

For the **relief of insect bites**, the application can be repeated when pain or discomfort reappear, until recovery.

To **protect yourself against insect bites**, with mild weather, an application provides up to eight hours of effective protection. In hot weather, sweating causes a more rapid elimination of the lotion, and it is recommended to reapply every four hours..

The protection is to be renewed after bathing, and also on the hands after washing them.

Precautions:

Concentrated product: do not ingest. Avoid contact with eyes and mucous membranes. Keep out of the reach of children.

For pregnant women, infants and people with medical conditions, it is advised to seek the advice of your physician before using this lotion.

For better results :

In areas, or seasons, heavily infested by insects and mosquitoes, protection can be increased by diffusing **the Home Insects Formula** in the most popular rooms in your home, and bedrooms, especially at night.
